DAY LILIES

A hardy, evergreen perennial plant that copes well with weather extremities and other conditions, like animals stomping and munching on the soft, attractive foliage.

Daylilies come in a large variety of colours and flower shapes, such as double, spider and miniature varieties.

Flowers make a fantastic, quick tropical statement to any table, no water required. Add a few stones and a glass plate!

Daylilies are given this name because each bloom lasts one day and then the next day another bloom opens.

A mature clump may flower up to, and sometimes longer than, six months of the year. Main flowering is Summer and Autumn.

Daylily roots have bank holding abilities.

Trimming back the foliage encourages new lush growth, even when the plant is left undisturbed.

Daylilies put on a better display in the same position, the second and third years. Some clumps may become difficult to move after more than 5 years in the ground. This is why they are plants known for bank holding and erosion control.

Daylily parts are edible and contain vitamins, including A and C!

Daylilies are available and dug all year round and, unlike most plants, this process rarely interferes with flowering.

Cultural notes are supplied with all plants purchased.

ALL PLANTS SUPPLIED BARE-ROOTED

The special price for 3, 10 and 20 daylilies is for any of the same variety.

	Name:	ACACIA GLEN
	Description:	Classic formed golden-orange daylily with lighter markings on petals and sepals, through to the throat
	Price:	\$5.00 each, 3 for \$13.00, 10 for \$45.00, 20 for \$80.00
