TALL BEARDED IRIS

Tall Bearded Iris come in all the colours of the rainbow. They are frost hardy, drought tolerant, beautiful, evergreen perennials that deserve a (FULL SUN) place in your garden.

Bearded Iris can be moved at any time of the year but planting after April may not produce flowers in the first spring following. KINSpirit Beards are dug mainly from December to April but some varieties are dug all year.

Cultural notes are supplied with all plants purchased.
